SUMMARY

Graduating BS Computer Science student specializing in Data Science at FEU Institute of Technology, with academic and project-based experience in data analysis, machine learning, and web development. Seeking an internship opportunity to apply foundational knowledge, contribute to real-world projects, and further develop technical and professional skills.

EDUCATION

College - Far Eastern University Institute of Technology | 2023 - Present

Bachelor of Science in Computer Science with Specialization in Data Science

Academic Recognition: Dean's Lister, Third Semester, A.Y. 2025–2026

TECHNICAL SKILLS

Programming: Python, Java, SQL, HTML / CSS

Data Science: Jupyter Notebook, Google Colab, NumPy, Pandas

Development Tools: Visual Studio Code, Git, GitHub, Vercel

AI Tools: ChatGPT, Claude AI, Gemini, Codex

RELEVANT EXPERIENCE

FlyRank AI — Remote: Machine Learning Engineering Intern | July 2026 – August 2026

- Practiced basic machine learning and data preparation using messy datasets.
- Studied joins, aggregation, embeddings, clustering, and intent modeling as ways to analyze search queries.

Work Immersion Trainee | Office of the Senior Citizens Affairs (OSCA), City Government of Meycauayan | May 2023

- Encoded, organized, and verified senior citizen records in Microsoft Excel while maintaining data accuracy.
- Created Excel drop-down lists and data-validation rules to standardize entries, reduce input errors, and improve data-entry efficiency.

PROJECT

JobPath | https://jobpath-graymen.vercel.app/

Best Thesis Award - Behavioral, Human, and Social Analytics | FEU Institute of Technology | 2026

- Collaborated in a four-member team to develop and deploy JobPath, a web-based career recommendation platform for students and recent graduates.
- Contributed across the development lifecycle, including interface design, feature implementation, application workflows, testing, debugging, research, and technical documentation.
- Applied AI-assisted development using Codex to generate, review, and troubleshoot code, then tested and refined the implementation to support reliable system functionality.

TRAINING AND CERTIFICATIONS

- PMI Project Management Ready | 2026
- IT Specialist - Python | 2025
- CCNA: Introduction to Networks | 2025
- Linux Essentials | 2025
